## PROFESSIONAL PROFILE

I am a software developer with experience in personal projects focused on web development and backend programming. I primarily work with Python, Flask, and SQL databases, and enhance my profile with graphic design skills, allowing me to create solutions that are both functional and visually appealing. I am characterized by being self-taught, proactive, and having a strong motivation to continue growing professionally. I am open to new challenges in various areas of development, eager to join teams where I can contribute and keep learning.
